MERCURY GLOBAL(Sales agent)

● We have our maintenance bases in China, Vietnam, Bangladesh and Myanmar, and we take care of machine troubles quickly.

OUR STORY

Until recently, almost all snaps used for baby garments were made from metal. With metal snaps, there’s a greater risk of aggravating existing skin allergies, the metal prong can also damage the baby’s skin. There have ever been some cases where babies have swallowed the snaps. Our plastic snaps are allergen free, kind to sensitive skin and attach securely to the garment reducing the risk of choking. Nowadays, you’ll find plastic snaps on baby garments everywhere on the market. “To deliver the safety and comfort to all babies”. This is our motto and responsibility we will continue to work hard to maintain and expand our ambition to the world.

PLASTIC SNAPS

1 Lightweight

Because plastic snaps are 1/3rd the weight of metal snaps, they can be attached to soft or thin material without weighing it down.

2 Won't rust

Since all parts are made exclusively of resin, they are clean and won’t rust. There is no risk of causing metal allergic reaction as well.

3 Colorful

With more than 60 rich color variations, you can enjoy various color combinations. They won’t ever become discolored either.

4 Safety

With their softness to the skin and easy on-off action, anyone can use snaps safely, from young children, all the way through the elderly.

5 High quality -MADE IN JAPAN-

Certified for the highest level of "Oeko-Tex Standard 100" Class 1. These products are 100% made in Japan.

6 Customization Options

In addition to various methods such as dyeing and coating, we also can create original designs using engraving and printing techniques, etc.

These snaps are commonly used on clothing, especially baby clothes. They are long-time best selling items for Kaji Tech.

These snaps are strong and hold to fabric sturdily. Winner of the 1997 Good Design Award, also popular overseas.

A plastic snap that looks like a threaded button. Received Good Design Award in 2014! Features heat resistance up to 210 °C.

MACHINE

KAJI TECH does not end up just "selling". As we are confident in our quality, we also provide great after-sales service. For example, when we install snap attaching machines in a factory, we visit the factory to install the machines and provide operation guidance and prevention from any malfunctions. We also perform machine maintenance on a regular basis. As a partner of manufacturing, we work closely and continue to contribute to our customers.

Hand press machine
TM-3NR

Kick press machine
TM-35NR

Semi automatic machine
TM-500SR

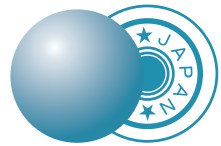

Fully automatic machine
TM-200

ST
Sun Tenac

DESCRIPTION

- Application : Baby Apparel, Maternity Wear, Rain Gear, Diaper Covers, Kids Apparel, etc.
- You can choose the attaching strength from soft up to hard. * Super soft is available for ST-70.
- SunTenac Series : ST-70(9mm,10mm) / ST-3(10.8mm) / ST-5(12.5mm) / ST-8(14.7mm)

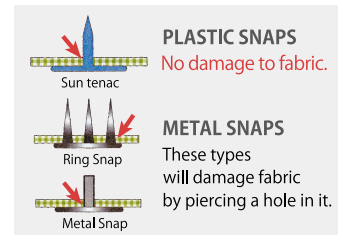

1 Reliability of MADE IN JAPAN

Sharp prongs won't protrude from fabric. Made of POM, so it's gentle on skin and metal allergy-free.

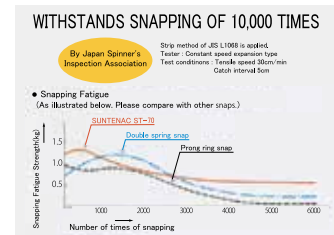

2 Won't Damage Fabric

The prong creates a gap and passes through the fabric without breaking the structure of the fibers.

3 Light and Durable

Aside from being lightweight, withstands up to 10,000 times fastening action. Also clean, bleach resistant, and won't rust.

SG
Sun Grip

DESCRIPTION

- Application : Jackets, Working Wear, Outdoor Gear, Sports Apparel, etc.
- Cap & post available in 40 colors
- SunGrip Series : SG600(11.5mm,13mm) / SG800(15mm) / SG1000(18mm)

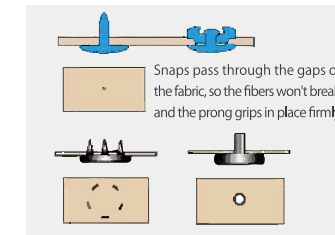

1 Reliability of MADE IN JAPAN

Soft fit, strong against side pulling, snaps together sturdily; can be used for sportswear and outdoor wear.

2 Firmly Grips the Fabric

Gentle to the fabric; Socket and Stud backsides grip the material firmly to join the snap to the garment.

3 A Luxurious Design

The Socket and Stud are designed with luxury in mind. (1997 Good Design Award-Winning)

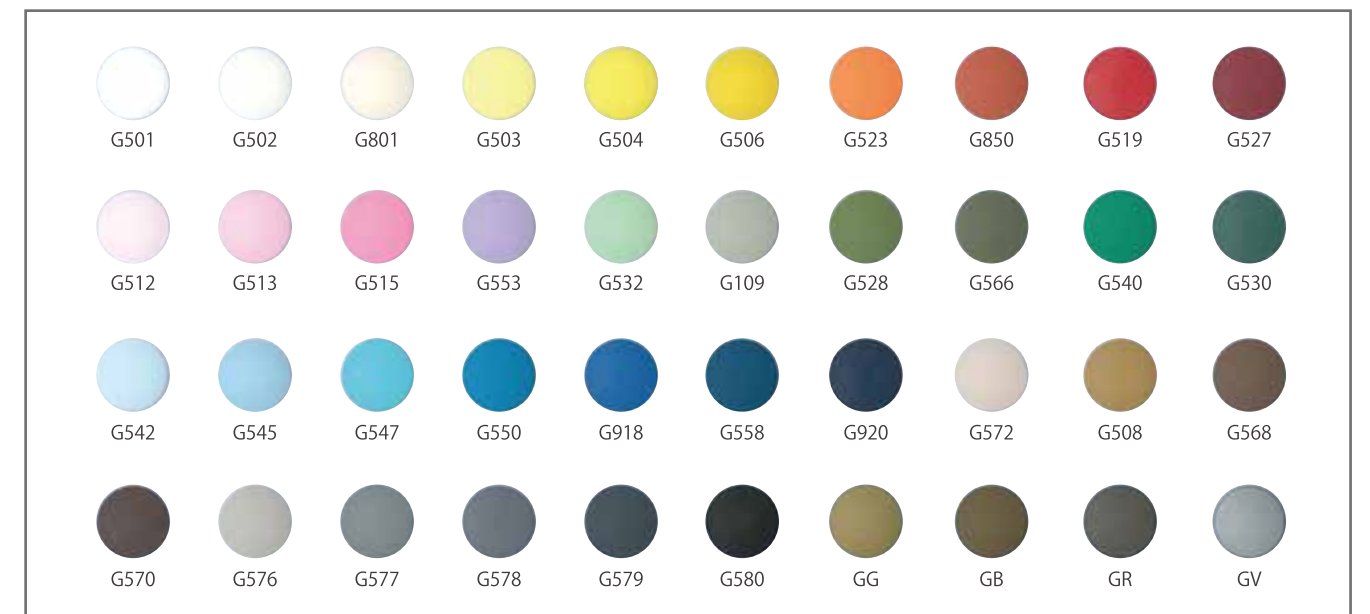

COLOR VARIATION

* Example of ST-70 (9mm MATT)

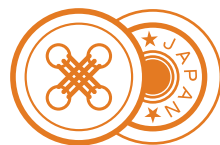

COLOR VARIATION

* Example of SG600 (13mm MATT)

SBS

Sun Button Snap

DESCRIPTION

- Application : Working Wear, Sports Apparel, Uniforms, Medical Wear, Pajamas, etc.
- Fashionable design, made to look like regular sewn-on buttons.
- SunButton Snap Series : SBS(9.5mm,11.5mm,13mm,15mm) * Heat resistant nylon up to 210 °C (CAP only)

1 Reliability of MADE IN JAPAN

Won't crack or fall off the garment because they are threadless. These snaps are safe to use and gentle on skin.

2 Thread Button Design

Increased fashionability since it looks like a threaded button. Also won the 2014 Good Design Award.

3 Easy on-off action

Change clothes effortlessly with our simple snaps. Easy for the elderly and children, or even while wearing gloves!

SPJ

Sun Plastic Jeans Button

DESCRIPTION

- USES : Kids wear, Denim garments, Outdoor, Work wear
- No peeling off color. Total 20 colors as standard color (Matt finish)
- We can make original logo by laser marking.

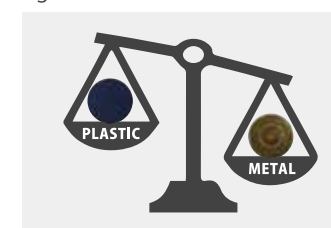

1 Made in Japan

High quality tuck button used for apparel and Miscellaneous goods.

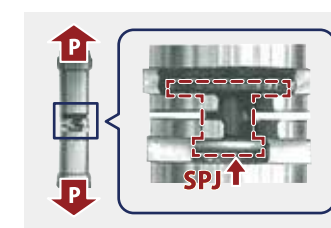

2 Light material

As material changed to plastic from metal, the button is 1/4 lighter than usual metal button.

3 Tough material

POM is very tough material and tensile strength is 60kg which is the same as metal button.

COLOR VARIATION

* Example of SBS (9.5 mm)

COLOR VARIATION

【SIZE : 17 mm】
